CLASSHOPPER™

Bookmark by Classhopper is an iPad app that automates the book log/reading log process, making it easy and fun for students, teachers and parents.

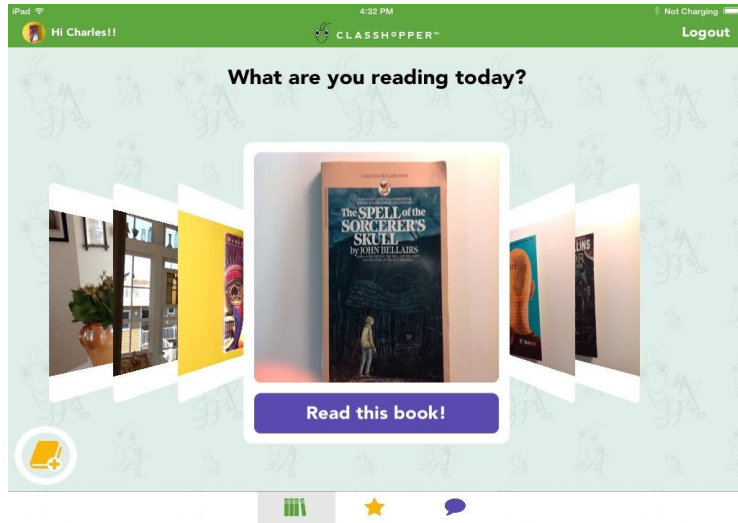

With Classhopper:

- Students can read ANY book (traditional or e-book) for independent practice.
- Classhopper trusts students to track and verify independent reading.
- Classhopper trusts teachers to provide feedback to students.

Available for use with:

- Students in grades K-5
- All states plus Washington D.C.

Students use the app to tell Classhopper about each book.

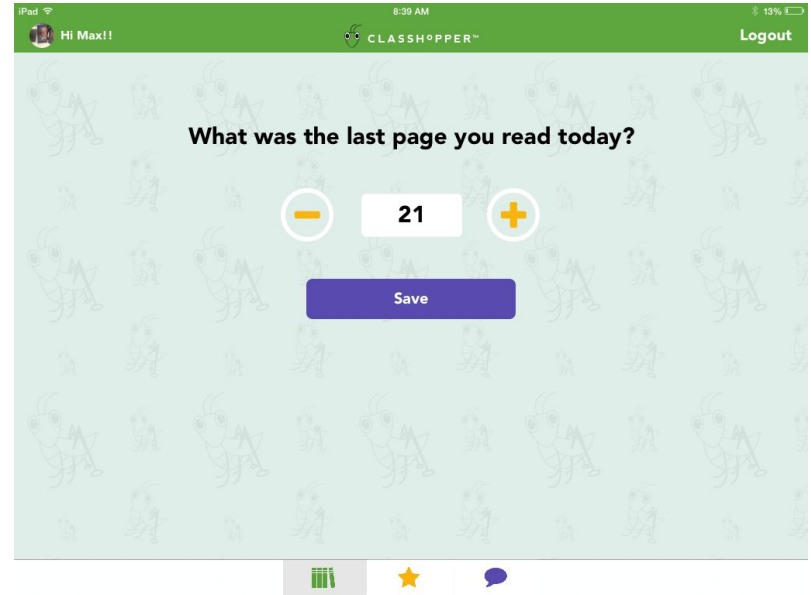

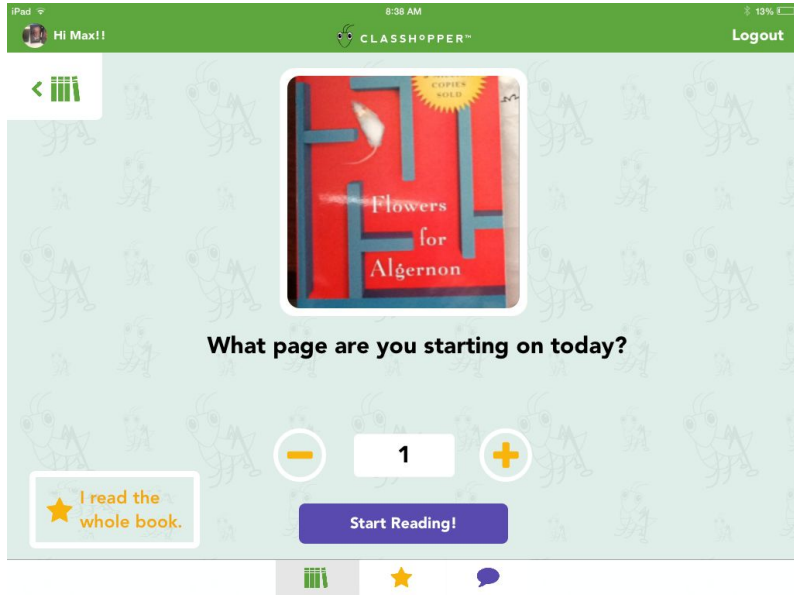

Students take a picture of each book.

Students indicate the type of book.

Students indicate page numbers when they start and stop reading. Classhopper keeps track of how long they read each day.

Students record answers to questions aligned with current state standards.

(one question each reading day)

iPad 8:46 AM 12%

Hi Max!! CLASSHOPPER™ Logout

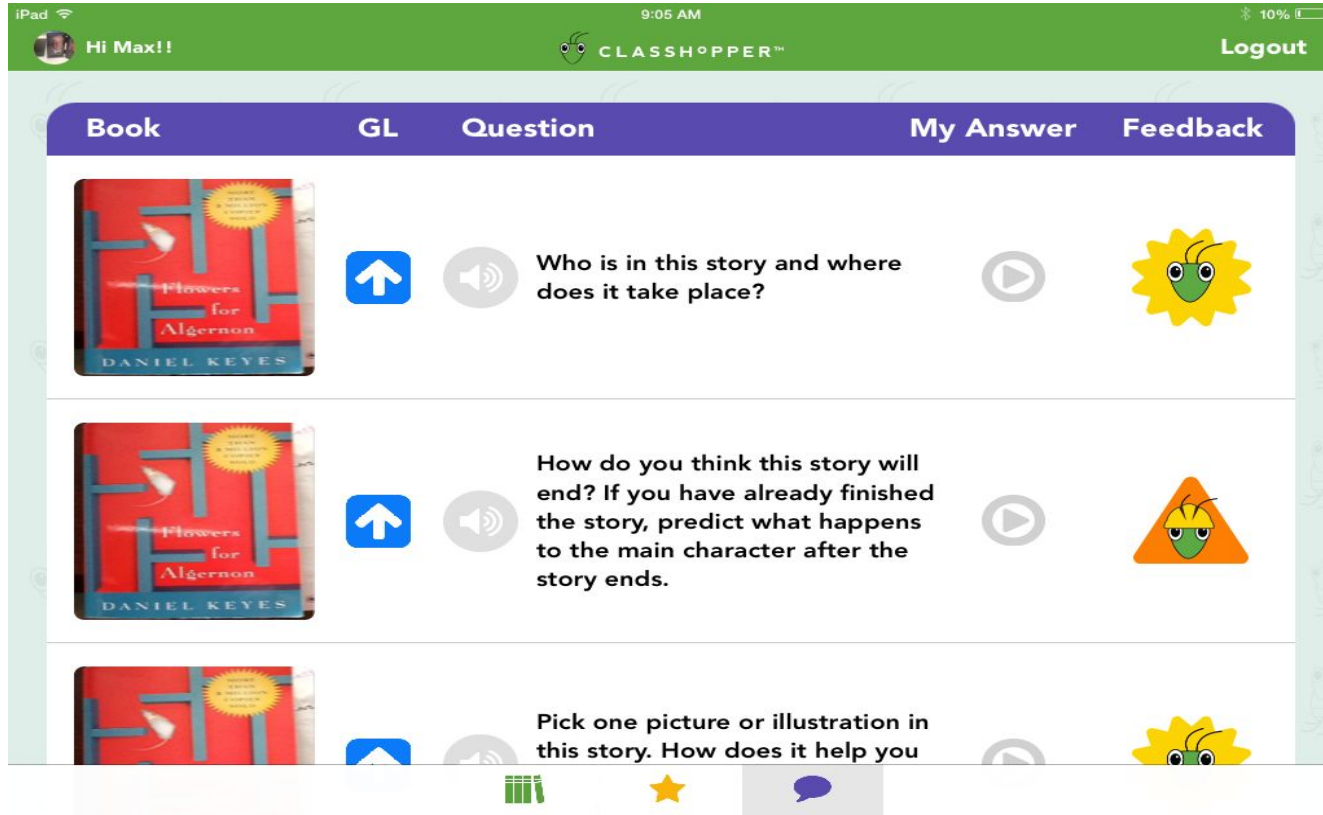

You did a great job reading! I have a question for you...

How do you think this story will end? If you have already finished the story, predict what happens to the main character after the story ends.

Redo

Turn in recording

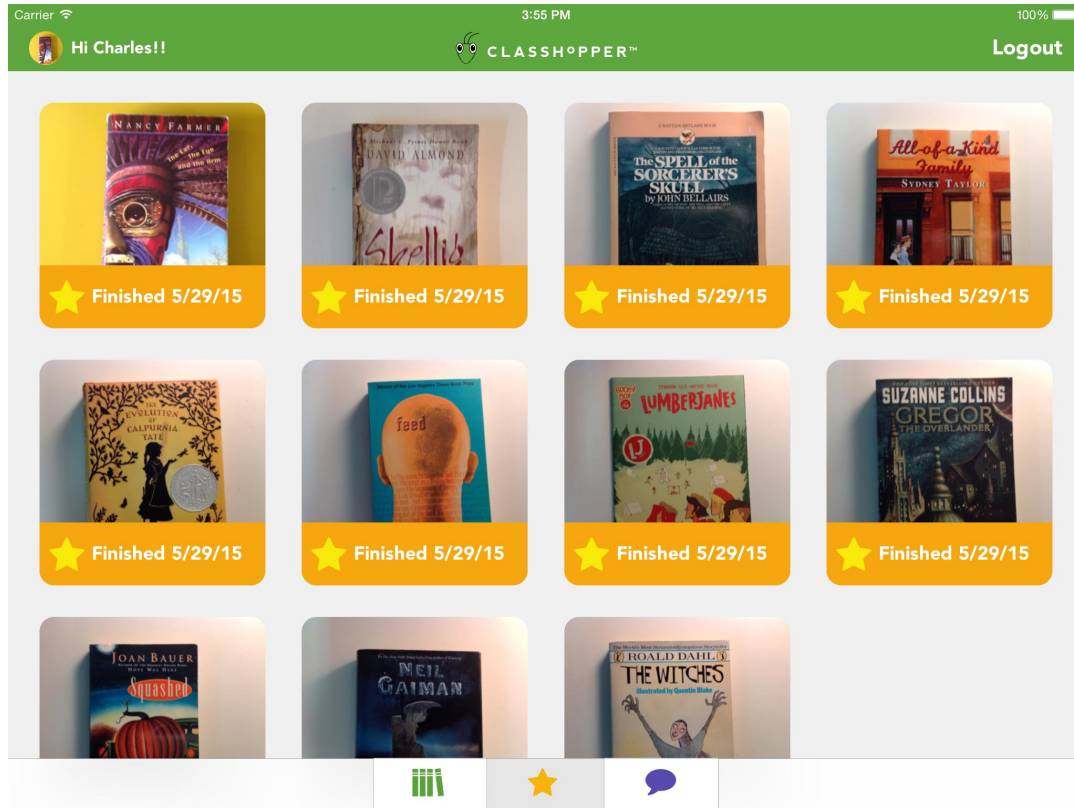

The teacher provides quick feedback, which can be reviewed by students and parents on the app.

A grasshopper badge means the student demonstrated mastery on this standard.

A grasshopper with a hard hat means the student is still working on this standard.

A record of all of each student's completed books is kept on the student app.

Parents can see progress on the app or from the online report link.
